

WORKING EXPERIENCES

FEB - MAR 2017 **SILBO, INC** ROLE: **CONTRACT iOS DEVELOPER**

I was responsible for developing a prototype iOS mobile application for a startup seeking Venture Capital funding. Not only was I responsible for the code base, but also the design. The work I performed for Silbo was under NDA. The app did not use Storyboards or NIB files and it was connected to an AWS backend to receive JSON data for parsing and display in the application.

APR - JUNE 2016 **THE IRON YARD** ROLE: **MOBILE ENGINEERING STUDENT**

During the 12-week intensive training I learned Swift, Objective-C, GitHub, MVC, iOS SDK, TDD, how to utilize RESTful APIs, Firebase, JSON, and Cocoa Pods in my various projects. I also had plenty of experience coding on a team. I made several iOS apps and in my final project I designed and coded in Swift, Food Genie, an app that helps people decide where to go eat based on their current location. You can see and download it at www.foodgenieapp.com. The app was voted top 10 by Phone Dog in February 2017 and featured on the TWiT Network.

2008 - 2016 **IMB** ROLE: **FIELD STRATEGY SUPERVISOR**

My family and I lived and served in China, India, Vietnam, Thailand, and Bangladesh as written English (Bilingual-Bicultural) teachers to Deaf peoples. I learned several languages both sign and spoken. I was responsible for strategy, supervision, and meetings for several team members in South Asia. While in India I did marketing, web development, and graphic design for a local company and the IMB.

2004 - 2008 **ANTIOCH BAPTIST CHURCH** ROLE: **ASSOCIATE/YOUTH PASTOR**

I taught the Bible to middle and high school students. I got students actively involved in their community locally and nationally. I and the youth did many construction projects in various states. I led several trips to East Asia where I taught teaching methodology. Was responsible in aiding the lead pastor. During this time I created and designed several websites and logos for our various ministries.

1999 - 2004 **ELECTRONIC SOLUTIONS, INC.** ROLE: **WEB DEVELOPER**

To become the web developer at ESI I had to go out in the community and get businesses to want me to design and develop a website for them. The position wasn't needed nor was their business at the time. I designed and coded several websites for this local internet provider. I was responsible for design, coding, testing, and customer service.

EDUCATION

2008 **BIBLICAL STUDIES, HISTORY, AND SECONDARY EDUCATION, B.A**
SOUTHEASTERN COLLEGE AT WAKE FOREST
WAKE FOREST, NC

2001 **INFORMATION SYSTEMS, A.A.S**
PIEDMONT COMMUNITY COLLEGE
ROXBORO, NC
